David Trissel

Lean Six Sigma Trainer and Consultant

<p>Brief Biography</p> 	<p>David Trissel is a strategic technology consultant with over 25 years of experience in information technology, software development management, and process improvement, including Lean and Six Sigma. David's diverse consulting experience includes working with senior management to initiate and implement Lean in various transactional business process areas, strategically implement technology to streamline operations and improve efficiency, and manage product development teams. David's consulting clients include companies in the insurance, financial, automotive, retail, defense and software industries that range in size from \$10MM to \$1B in revenue. David has been involved in Lean and Six Sigma training and consulting for seven years, having trained well over 1000 people at clients including Arrowhead General Insurance, Plaza Home Mortgage, Advanced Diabetes Supply, Cubic Defense Applications, Cubic Transportation Systems, Solera, KOFAX, and Red Door Interactive. David has held technology management positions at large and mid-size companies. Most recently, he was Associate Vice President, Process Excellence at Audatex, a Solera company. Prior to that, David held Senior Director positions in Software Engineering, Quality Assurance, and Process Improvement at Mitchell International.</p>

<p>Delivery Style</p>	<p>In-person small classroom and workshop environment. Highly interactive with games, quizzes, and project work. Frequently engage students in conversation, tailoring discussion and examples to customer-specific scenarios.</p>		

<p>What Clients Have Said</p>	<p>"David has helped us realize the benefits of the Lean principles much more quickly than if we had been doing it without his support. Too often, training doesn't 'stick' and the theory is never really applied in practice. He become truly vested in the success of our initiative and has been engaged in leading its implementation even after training was completed."</p> <p>"David has been an integral partner with Advanced Diabetes Supply (ADS) on our Lean journey. The insight and understanding that he has provided to our staff through the Lean trainings has been invaluable in getting everyone at ADS to view their jobs differently and to be constantly vigilant in searching new and better ways to perform their job functions. This outlook has resulted in tremendous cost savings for our company, as well as vastly improved operations. In addition, team members of the ADS have genuinely enjoyed the training. The empowering effect has had a positive impact on our corporate culture."</p>
